

IH 30, Fielder Road to Dallas County Line Arlington, Texas

CobbFendley provided **Utility Construction Management**, which included monitoring and verification of the relocation of gas and electric distribution lines, City of Arlington water and sewer lines, and AT&T telecommunication lines. The CobbFendley observation team held status meetings with the contractor, and monitored the construction contractor daily to verify proper placement and backfill of the utility. The team also provided as-built drawings of the utilities.

Project Length:

70,000 LF

Completion Date:

June 2010
